

Exercise 1: Explore a Pre-Built Gem

Objective:

To explore a pre-built Gem in Gemini.

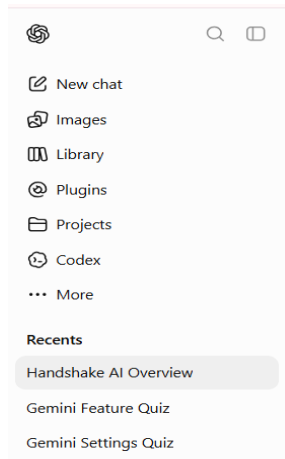

Steps Performed:

1. Opened Gemini.
2. Checked the left sidebar for the **Gem Manager**.
3. The **Gems** feature was not available in my Gemini account.

Outcome:

I could not complete this exercise because the Gems feature is not available in my account.

Screenshot:

Exercise 2

Outcome:

The **New Gem** feature was not available in my Gemini account, so I could not create a Gem.

Exercise 3

Outcome:

The **Knowledge Base upload** feature was not available because the Gems feature is unavailable in my account.

Exercise 4

Outcome:

The **Google Workspace/Gmail Extension** was not available in my Gemini account, so I could not complete this exercise.

Exercise 5

Outcome:

I was unable to build a domain-specific Gem because the **Gems feature** is not available in my Gemini account.
