

GPT Name

AI/ML Interview Mentor

Target Users

- Final-year students
 - Fresh graduates
 - AI/ML job seekers
 - Data Science learners
 - MLOps beginners
-

Problem Statement

Many students preparing for AI/ML careers face difficulties in interview preparation, resume improvement, coding practice, and project explanation. They often spend a lot of time searching for information from different platforms. A Custom GPT can provide personalized guidance, interview practice, resume reviews, and learning support in one place.

Expected Outcomes

- Personalized interview preparation
- Resume review and improvement
- AI/ML concept explanations
- Coding practice support
- Project review assistance
- Increased confidence for technical and HR interviews
