

Exercise 1: Fast vs Thinking Mode Comparison

Objective

To compare Fast mode and Thinking mode in Gemini.

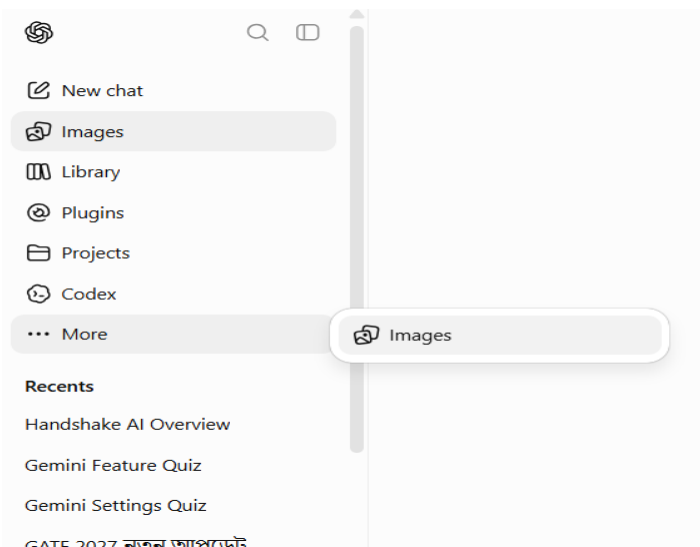

Steps Performed

1. Opened a new chat in Gemini.
2. Used Fast mode and asked: **"Write a short poem about the ocean."**
3. Checked for the Thinking mode option.
4. The Thinking mode was not available in my Gemini account.

Outcome

I successfully tested Fast mode. However, Thinking mode was not available in my Gemini account, so I could not compare both modes.

Exercise 2: Work in Canvas for Document Editing

Objective

To use Canvas for document editing.

Steps Performed

1. Opened Gemini.
2. Tried to access the Canvas feature.
3. The Canvas feature was not available in my Gemini account.

Outcome

Canvas was not available in my Gemini account, so I could not complete this exercise.

Exercise 3: Image Generation and Editing Workflow

Objective

To generate and edit an image using Gemini.

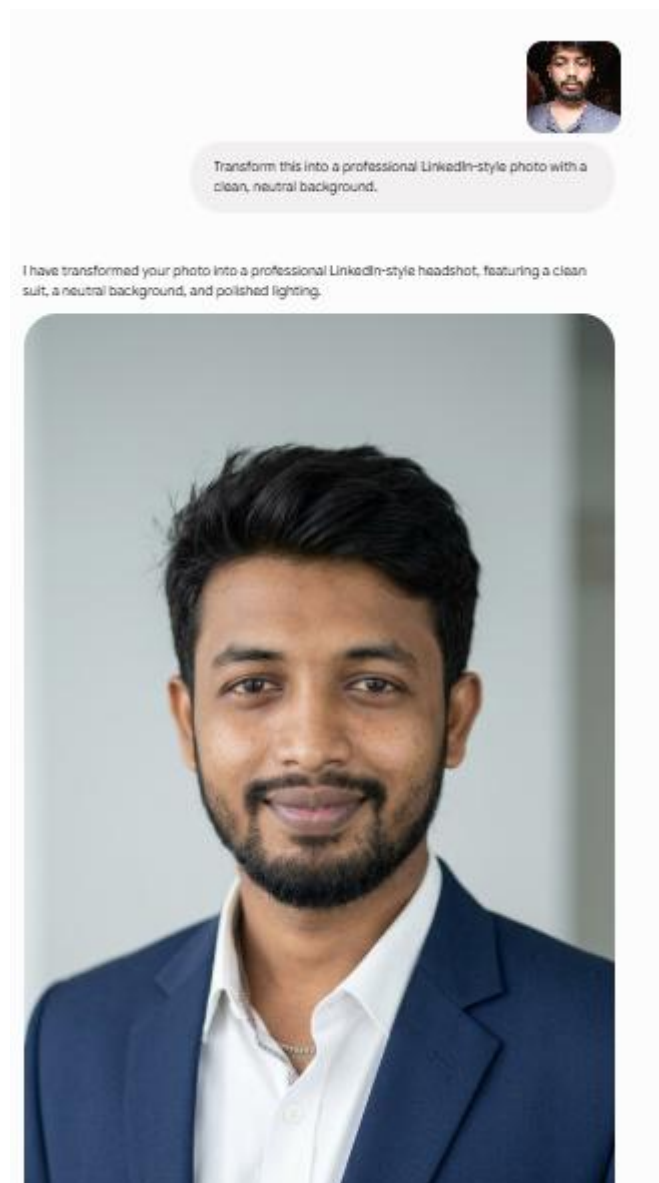

Steps Performed

1. Opened the Images feature.
2. Uploaded an image.
3. Entered the prompt:
"Transform this into a professional LinkedIn-style photo with a clean, neutral background."
4. Refined the image by changing the background and adjusting the lighting.

Outcome

Gemini successfully generated and edited the image using natural language prompts.

Exercise 4: Run a Deep Research Query

Objective

To use the Deep Research feature.

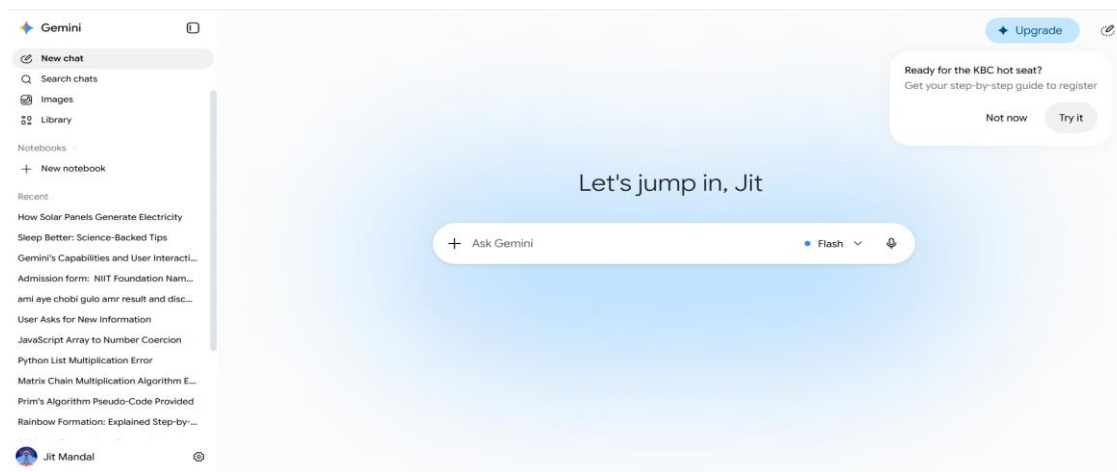

Steps Performed

1. Opened Gemini.
2. Checked for the Deep Research option.
3. The Deep Research feature was not available in my Gemini account.

Outcome

Deep Research was not available in my Gemini account, so I could not complete this exercise.

Exercise 5: Set Up a Scheduled Automated Briefing

Objective

To set up a scheduled automated briefing.

Steps Performed

1. Opened Gemini Settings.
2. Checked for the Scheduled Actions feature.
3. The Scheduled Actions feature was not available in my Gemini account.

Outcome

Scheduled Actions was not available in my Gemini account, so I could not complete this exercise.
